WORK EXPERIENCE

o9 Solutions - User Experience Designer II

Apr 2019 - Present

At o9, I craft user-centric experiences that elevate supply chain management for enterprise applications. With nearly 5 years of experience across web, iOS, and Android projects fuel my ability to design intuitive and efficient interfaces that empower users and optimize workflows.

Key Projects :

- Integration 3.0 (In house ETL tool) *2+ years*
- o9 Platform - Dark Mode
- o9 Mobile Platform - Supply Chain Data Visualisation
- Design System foundation

Digit9 Tech Lab - UX/UI Design Intern

Nov 2018 - Apr 2019

I worked with Digit9 as an intern to understand the design process. I worked on security products and creating interfaces which involved creating User stories, wireframes & Visual interfaces. I also had the opportunity to learn Visual Designing and micro interactions, icons design, component, flyer designing

LVDS Dance School - Bussiness Analyst Intern

Aug 2018 - Oct 2018

I worked with LVDS as an Intern and was involved Interviewing personnel and conducting onsite observations to bring people together for National Dance Competition and I also had the opportunity get started in designing - creating posters & flyers

NASSCOM Foundation

March 2018 - April 2018

Worked in bringing people together for a platformed called "MyKartavya" which helps nonprofits organisations that need skilled volunteers, and professionals from across organizations, who can contribute their skills and time.
